

Please do not allow LPFM to take priority over our current FM translator service. Regional services such as K-LOVE is so valuable in our community of Folsom and El Dorado Hills because it provides family radio that is safe and morally uplifting not only for children, but for all who listen. It means so much to me and my family that we listen to KLOVE on a daily basis, and it would surely be missed by us and so many of our friends who also enjoy the station. In a world where there is so much immorality bringing down the values once held, we need programs which encourage us to uphold a standard of excellence. It is so valuable to the public interest because it encourages right living, reaching out to others in love to help and encourage, and reminds us what God expects from us. Please consider these all-important values, and keep stations such as KLOVE on the air. I am one person writing to you, but I am sure that I represent so many more who are not able to contact you.

I thank you for myself, my family and my friends who want to keep enjoying KLOVE for many years to come.
